

KENNETH BRIAN

"real country music"

In the fall of 2002 Kenneth Brian packed a suitcase and his guitar and moved to Nashville, Tennessee. With eight years of experience playing in an eclectic assortment of country, metal, and punk bands behind him, Kenneth followed his dream up to Music City and hasn't looked back since, touring nonstop around the US and Europe.

"Firmly rooted in his Honky-Tonk Ways"*

Kenneth's writing draws inspiration from his life growing up on the Gulf Coast of Florida, and his family's West Virginia hard working roots. His lyrics reveal his years spent on the road as a musician- moving forward and looking back on what he'd left behind.

His music is straight ahead Roots Country with a contemporary sharpness, fueled by a backbeat of raw emotion.

"The Past, Present, and Future of Country Music"**

Since moving to Nashville Kenneth has been bringing his talents back and fourth to clubs across the country, into the studios on Music Row writing for Sony/ATV publishing, and Starring as Hank Williams Sr. in Hank Williams: Lost Highway at the Zachary Scott Theatre in Austin, TX.

His genuine authenticity and modern edge have attracted listeners from all over the world.

Perhaps the biggest compliment to his career,

Kenneth refuses to sacrifice himself, his morals, and what his music stands for; The preservation and charge forward of music that the hard working, fast living, and heartbroken can all relate to.
